Mobile: +91-9680840836

Skills

- **Languages**: C++, C, Python, Java, JavaScript, PHP
- **Frameworks**: HTML and CSS, Bootstrap, NodeJS, React
- **Tools/Platforms**: MongoDB, Data Structures & Algorithms, OOPs, OS, DBMS, DAA, Software Engineering
- **Soft Skills**: Problem-Solving, Team Player, Collaboration, Adaptability, Leadership

Internship

Software Intern – MICRO IT – Link May'25 - Jun'25

- Produced a fun and interactive quiz experience across multiple categories like General Knowledge, Science, and Movies, ensuring clear project objectives.
- Utilized modern technologies including HTML, CSS, JavaScript (React), Node.js, and MySQL/MongoDB as the core tech stack for development.
- Provided smooth performance, scalable data handling, and a responsive interface as measurable results of the implementation

Projects

Quizzyfile- Link: Jun'25

- Built an interactive quiz platform that improves user knowledge across multiple categories such as General Knowledge, Science, and Movies, with an emphasis on simplicity and engagement.
- Used a modern tech stack—HTML, CSS, JavaScript, React, Node.js, Express, and MySQL/MongoDB—to develop a scalable and dynamic web application.
- Delivered a fully responsive and user-friendly quiz system featuring category selection, timed questions, and real-time score tracking for enhanced learning.

AI Weather Forecaster- Link: Jan'25

- Developed an AI-powered weather application that delivers accurate forecasts, real-time updates, and engaging features like a smart chatbot and "cosmic mood" insights.
- Utilized HTML, CSS, JavaScript, React, Node.js, Express, and the OpenWeatherMap API to build an intelligent, dynamic, and data-driven weather platform.
- Completed a modern, responsive, and seamless user experience across devices, enabling personalized weather queries and 5-day forecast planning with ease.

Training

AI & ML for Real-world Problem Solving–LPU– Link Jun'25 - Jul'25

- Finished Summer Training in AI & ML focused on real-world problem solving.
- Implemented key ML algorithms for classification, prediction, and clustering.
- Gained hands-on experience with Python, data preprocessing, model training, and evaluation.

Certificates

- AI & ML for Real-world Problem Solving | LPU |Certificate Jul'25
- Internship Certificate | Micro IT |Certificate Jun'25
- 10+ Completion Certificate | MongoDB |Certificate Jun'25
- Completion Certificate (Network Communication) | Coursera | Certificate Sep'24
- Certificate of Participation (Hackathon) | Code Of Duty | Certificate Mar'24
- Completion Certificate (C++) | Lets Upgrade | Certificate Oct'23

Achievements

- **5* in CPP on Hacker Rank:**
  For strong problem-solving skills in algorithms and data structure
- **50+ Leet Code Problems:**
  Solving 50+ Leet Code problems, resulting in a 20% improvement in DSA concepts.

Education

- **Lovely Professional University** Phagwara, Punjab
  Bachelor of Technology - Computer Science and Engineering; ***CGPA: 6.19*** *Since July 2023*
- **Tagore Public College** Jaipur, Rajasthan
  Intermediate; ***Percentage: 71%*** *June 2020 - May 2022*
- **Jamna Vidhyapeeth School** Jaipur, Rajasthan
  Matriculation; ***Percentage: 70%*** *June 2019 - May 2020*
